Sonoma Forge's WaterBridge Faucet Bridges Gap Between High Design, Versatility, And Function

Popular Waterfall Spout is joined by the Elbow Spout, which offers a water stream directed straight down for ramp-style and smaller sinks

(Petaluma, CA, August 12, 2015) Sonoma Forge has expanded on its popular WaterBridge Collection with a new spout option that broadens the versatility and function of the "industrial chic" faucet style. The new Elbow Spout is offered for ramp-style sink designs and for smaller sinks where the water stream would ideally be directed straight down. With multiple options in size, spout style, handle style, and finish, the WaterBridge Collection blends as beautifully in a chic urban loft as it does in a rustic farmhouse retreat.

"A departure from the ordinary, WaterBridge represents the backbone of Sonoma Forge," says Erik Ambjor, president of Sonoma Forge. "As one of our top-selling faucet designs, WaterBridge breaks the mold of the common chrome faucet. It's a simple, yet bold design that delivers our signature 'industrial chic' style for the entire bathroom suite." Ambjor further explains, "We added the Elbow Spout to complete the loop on versatility for the WaterBridge Collection, making it an excellent design solution for all styles of sinks."

The better-known, design-forward WaterBridge Waterfall Spout fuses the rustic look of raw plumbing parts with an Asian style. While its lines resemble delicate reeds of bamboo, WaterBridge possesses undeniable heft and sturdiness, complemented by rustic and raw metal finishes. Simple, yet strong, the WaterBridge Collection includes lavatory faucets, bar faucets, tub fillers, shower systems, and coordinating accessories.

Like the rest of the WaterBridge Collection, the Elbow Spout design has a rustic look, while offering increased functionality that targets a new market niche. In contrast to the popular Waterfall Spout, which projects the water stream outward in a graceful arc, the new Elbow Spout directs the water downward, making it as practical as it is distinctive for shallow ramp- or vessel-style sinks.

Options available in the WaterBridge Collection include:

- Height: Short (9 in.), Tall (13 in.)
- Spout style: Waterfall, Gooseneck, Elbow
- Mounting: Deck-Mounted, Floor-Mounted, Floor-Mounted Tub Filler (36 in.)
- Handle style: T-handle, Offset Lever, Cross Handle
- Finish: Rustic Copper, Rustic Nickel, Satin Nickel, Oil-Rubbed Bronze
- Accessories: Cabinet Pull, Mirror Mounts, Robe Hook, Shower Door Handle, Tissue Paper Holder, Soap Pump, Towel Bar, Shower Drain, Soap Holder, Towel Ring, and Sink Drain
- Exposed showers: Floor Mount and Wall Mount configurations; Rainhead, Footwash, and Handshower options

Prices for WaterBridge faucets and shower systems range from \$1,490 to \$6,075. Like all Sonoma Forge premium designer faucets and fixtures, the WaterBridge Collection is made in America.

About Sonoma Forge

Located in the heart of Northern California's wine country, Sonoma Forge's roots are steeped in a rich history of industrial foundries where craftsmen hand forge metals. We celebrate the art of skillful metalworking and machining by highlighting the beauty of metal in our unique line of designer faucets and tub fillers, dramatic shower systems, and coordinated bath accessories. Our distinctive product line offer homeowners refreshing design options with a decidedly masculine sense of style that enhances any setting, whether urban loft, country villa, or boutique hotel. Sonoma Forge's artistry and attention to detail is supplemented with innovative technology in models offered with **Sans Hands**, our exclusive sensor faucet technology. All Sonoma Forge products are handcrafted and assembled by artisans dedicated to forging the finest, most extraordinary products on the market.
