WaterBridge cabinet pull in Rustic Nickel

Sonoma Forge Expands Bathroom Accessories Collection to Include Cabinet Hardware

Comprehensive accessories collection includes thoughtful, functional details alongside striking good looks

(Petaluma, CA, October 13, 2020) Sonoma Forge has introduced a new series of cabinet hardware pulls that seamlessly carries over the quintessential industrial-style aesthetic of the company's extensive line of accessories. But just as important as eye-catching looks are well-thought-out details that provide optimal functionality and a streamlined, coordinated appearance.

WaterBridge
cabinet pulls

Along with the rest of the company's **accessories**—from soap dishes, towel bars and rings to toilet paper holders and robe hooks—the new pulls were designed to coordinate with the **WaterBridge** and **WhereEver** faucet lines, boasting the stylish, organic look of raw plumbing parts, as well as the **CiXX** collection, featuring a one-of-a-kind hand-hammered look. The company's wide selection of accessories is also available to complement the **Brut** and **WingNut** faucet lines. All told, each line has a nearly endless array of coordination options, and like all Sonoma Forge products, the accessories are handcrafted and assembled by the company's in-house artisans.

Stand-out details within the accessories line include:

- Unique mirror mounts that emulate the signature pipe look
- Backing plates for mounting Exposed Shower System to glass shower walls for a clean, finished looking installation (also for mounting hand shower bracket, wire soap basket, and robe hook)
- Soap pump for under-counter, above-counter, or wall-mount installation
- WaterBridge clamp for hand shower and soap basket for use on tub fillers and exposed shower systems

The new cabinet hardware is available in three sizes—2", 5" and 10" center-to-center—and comes in Rustic Nickel, Satin Nickel, Oil Rubbed Bronze, Rustic Copper and Matte Black custom finishes.

“We put just as much thought into our accessories as we do our unique lineup of faucets and fixtures,” said Erik Ambjor, Sonoma Forge President. “Along with a look that stands out in the bathroom with a distinctively rustic flair, our accessories expertly blend function with form to ensure a seamless appearance and long-lasting performance.”

About Sonoma Forge

Located in the heart of Northern California's wine country, Sonoma Forge's roots are steeped in a rich history of industrial foundries where craftsmen hand forge metals. We celebrate the art of skillful metalworking and machining by highlighting the beauty of metal in our unique line of designer faucets and tub fillers, dramatic shower systems, and coordinated bath accessories. Our distinctive product line offers homeowners refreshing design options with a decidedly masculine sense of style that enhances any setting, whether urban loft, country villa, or boutique hotel. Sonoma Forge's artistry and attention to detail is supplemented with innovative technology in models offered with **Sans Hands**, our exclusive sensor faucet technology. All Sonoma Forge products are handcrafted and assembled by artisans dedicated to forging the finest, most extraordinary products on the market.
