## Sonoma Forge Adds Contemporary Option for Thermostatic Showers

Clean-lined showerheads and hand wands add a modern edge to industrial-style exposed shower systems

**(Petaluma, CA, March 24, 2022)** Sonoma Forge is expanding on its popular **Thermostatic Exposed Shower System**. The thermostatic showers are beloved by consumers and designers, combining an industrial appeal with the safety and convenience of set-it-and-forget-it temperature control. Designers can now specify thermostatic showers with a more contemporary look, pairing the standard shower with a sleeker rainhead or a more modern hand wand.

“Sonoma Forge is known for our rustic, industrial aesthetic. With these new options, designers can infuse that rustic look with subtle modern influences,” said Erik Ambjor, Sonoma Forge President. “The result is a unique transitional element well-suited to a range of indoor and outdoor bathroom decors.”

The thermostatic showers are a part of the manufacturer’s **WaterBridge Collection**, which offers a beautiful interpretation of rustic raw materials such as off-the-shelf copper tees, elbows, and pipe. **Wall-mount** and **floor-mount** shower options are available.

The new contemporary styling option pairs well with the recently introduced Matte Black finish. Other finish options include Rustic Nickel, Satin Nickel, Rustic Copper, and Oil-Rubbed Bronze. Additional finishes are available for special order.

Sonoma Forge faucets are forged in America.

### **About Sonoma Forge**

Located in the heart of Northern California’s wine country, Sonoma Forge’s roots are steeped in a rich history of industrial foundries where craftsmen hand forge metals. We celebrate the art of skillful metalworking and machining by highlighting the beauty of metal in our unique line of designer faucets and tub fillers, dramatic shower systems, and coordinated bath accessories. Our distinctive product line offers homeowners refreshing design options with a decidedly masculine sense of style that enhances any setting, whether urban loft, country villa, or boutique hotel. Sonoma Forge’s artistry and attention to detail is supplemented with innovative technology in models offered with **Sans Hands**, our exclusive sensor faucet technology. All Sonoma Forge products are handcrafted and assembled by artisans dedicated to forging the finest, most extraordinary products on the market.
