Sonoma Forge Introduces Cold-Water Outdoor Shower Systems for WaterBridge Line

Cold-water options make adding an outdoor shower in warm locales convenient and stylish

(Petaluma, CA, April 25, 2024)

Sonoma Forge, manufacturer of hand-forged bath fixtures inspired by humble plumbing parts, is expanding its **WaterBridge** line with four cold-water **shower systems** for outdoor applications. The cold-water options are ideal for warm climates where outdoor showers are popular and where hot-water lines are not always available or convenient to install.

Designed with the rustic look of raw plumbing materials, the WaterBridge showers exude an industrial feel to a beautiful effect. The showers come standard with an 8-inch rainhead and tee-handle. They are specified from four standard models: Model 140 with just rainhead, Model 150 with rainhead and handshower, Model 170 with rainhead and footwash, or

Model 180 cold-water outdoor shower from WaterBridge line in Oil-Rubbed Bronze finish

“Outdoor showers are an important convenience and luxury for coastal areas, and these new cold-water showers make it easy to add the must-have feature no matter the home’s locale or age. And with humble-yet-elegant WaterBridge styling, the showers add the perfect decorative touch to nearly any exterior style.”

—Erik Ambjor, Sonoma Forge President

Model 180 with rainhead, handshower, and footwash. They are also customizable with a contemporary rainhead, a gooseneck shower arm, and cross-handles as well as custom dimensions that fit a special installation application.

“Outdoor showers are an important convenience and luxury for coastal areas, and these new cold-water showers make it easy to add the must-have feature no matter the home’s locale or age,” said Erik Ambjor, president of Sonoma Forge. “And with humble-yet-elegant WaterBridge styling, the showers add the perfect decorative touch to nearly any exterior style.”

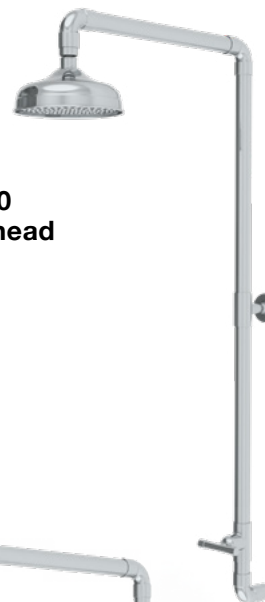

Forged in the USA, the showers come in Rustic Nickel, Rustic Copper, Satin Nickel, Oil-Rubbed Bronze, and Matte Black finishes, as well as many others on a special-order basis. The systems use a single water line and have no mixer but can be connected to a mixed water line to supply lukewarm or warm water.

About Sonoma Forge

Located in the heart of Northern California’s wine country, Sonoma Forge’s roots are steeped in a rich history of industrial foundries where craftsmen hand forge metals. We celebrate the art of skillful metalworking and machining by highlighting the beauty of metal in our unique line of designer faucets and tub fillers, dramatic shower systems, and coordinated bath accessories. Our distinctive product line offers homeowners refreshing design options with a decidedly masculine sense of style that enhances any setting, whether urban loft, country villa, or boutique hotel. Sonoma Forge’s artistry and attention to detail is supplemented with innovative technology in models offered with **Sans Hands**, our exclusive sensor faucet technology. All Sonoma Forge products are handcrafted and assembled by artisans dedicated to forging the finest, most extraordinary products on the market.
